My team named SWAMITWA achieved the 17th position all over India.
- SIH 2020
Secured 1st position in College and Inter-College Level.

PROFILE

Intended to build a career with a leading corporate with a congenial environment that will help me to explore my strengths.

TRAINING

FOX-TRADING | 1stop.ai | Machine-Learning Intern

April 2022 - June 2022

- Restaurant Review using NLP
 - It is basically a sentiment analysis used for text analysis, computational linguistics, and bio-metrics to identify and extract subjective information.
 - In this, we get some reviews from a restaurant and analyze what the customer needs in the restaurant.
 - Tech Involved: NumPy, PANDAS, NLTK (Natural Language Tool-Kit), Schikit-Learn (SKlearn), RE.
- Wireless SoundControl
 - The camera of my device first detects the landmarks of the hand and calculates the distance between the thumb tip and index finger, next maps it with volume range.
 - Tech Involved: OpenCV, pycaw, Media Pipe.

PROJECTS

- Visualizing and Forecasting Stocks using DASH
 - It is basically a web application with some Machine Learning Models show the company information and Implements a Machine Learning model to predict the stock price.
 - Tech Involved: DASH, Python, Data Visualization, Web-Development, Machine Learning.
- Instagram Automation Tool
 - It is basically a clone of Instagram able to automate general activities like following, likes, comments, and exploring We also store metadata like profile name, follower count, likes, and comments.
 - Tech Involved: Selenium, Automation, Python.
- INTAL- INTegers of Arbitrary Length
 - The aim of this one is to bring that support to the C language along with mathematical operations.
 - Tech Involved: C, Low-Level Implementation of Arithmetic Operations, Big-Integers.

CERTIFICATIONS

- Nasscom Digital 101
A technical-driven course conducted by NASSCOM.
- Technical Support Fundamentals
An online non-credit course authorized by Google.
